**DETAILED ACTION**

1. The examiner, after careful considered the applicants' argument with regard to the examination of claims 14 and 15 together with claims 1-2, agrees to re-open the execution of claims 14-15 in addition to claims 1-2.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 48 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

4. With regard to claim 48: Claim 48 (ln. 2) recites the limitation of MPEG-4 coding and compression protocols, this renders the claim indefinite since as rules change overtime, the scope of the invention can not change to accommodate the new rules. Further more, there is no copies of the MPEG-4 versions claimed provided.

***Claim Rejections - 35 USC § 102***

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. Claims 1-2 and 14-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Koz (US 5,990,955).

Art Unit: 2613

Claims 1 (lines 3, 7 and 9) and similarly claim 14 (lines 4, 8 and 9) recite the alternative language OR in "dividing each of the image signals into **one or more** area image signals, packetization means for collecting **one or more** ...adding packet header information to the collected **one or more** area image code string." In the special case of dividing each of the image signal into only one area image signal, Koz as cited in the previous Office Action meets the limitation as claimed (admitted by applicants own argument of page 17, lines 4-23) and again claims 1-2 and 14-15 are rejected as of previous Office Action. It is the examiner's opinion that if the alternative language of "one or more" is changed to "a plurality of"; then this would overcome the rejection of record.
